

## GPS Tracking Devices Approved for Transport by SWA Cargo

The devices on this list have been vetted and approved for transport in the cargo compartment of the aircraft by the Department of Transportation (DOT), Federal Aviation Administration (FAA) and the Southwest Airlines Avionics Engineering Leadership. The batteries contained in these devices are under 100 (WH) and there are no regulations that require a Shipper to identify, either on the air waybill or the packaging, that the package contains a tracking and monitoring device.

If the Customer is wanting to submit a device for review and approval, they can send their request to [cargocompliance@wnco.com](mailto:cargocompliance@wnco.com)
